RESOLVED – Councillors unanimously agreed that the following comments for application SCC Ref 2019/0133 be submitted: The Parish council notes that this is a well-established site, but the application to vary approved plans (as set out under Condition 10 of planning permission TA/2015/1572) to allow for increased electricity generation, would mean that the increase in the unit size would actually be a sizeable increase. The Parish council have concerns about the exhaust gas that will be released from a substantially larger unit and the detrimental effect on the surrounding area if the size of unit is granted permission to be increased.

 - C1** - Confirm that the tenderer accepts the contract as detailed in the tender, with the stipulated number of cuts per area and the contract value;
 - C2** - The contract must be accepted on the terms detailed in the tender; the contractor may be asked to carry out additional cuts on certain areas, but this not guaranteed as part of the contract;
 - C3** - The Parish council would accept recommendations from the contractor for additional cut(s) of any areas during the year and would welcome regular reviews of the schedule of cuts to ensure areas are kept in good order;
 - C4** - Any recommendations in relation to the number of cut(s) should be raised with the Clerk to liaise with council, thus allowing the council to manage the grass cutting budget effectively.

12.2 Maintenance Contract

- 12.2.1 Councillors discussed that the maintenance contract draft still needs to be completed and sent to potential contractors and advertised.
- 12.2.2 The draft schedule circulated was noted

ACTION 10/2019 – 8a – Councillor to review the drafted maintenance schedule to comment if it is lacking or excessive in the jobs detailed as part of maintenance.

- 12.2.3 Councillors discussed a review of figures that the Clerk had prepared to review how the spend of maintenance funds had been split across the area.
- 12.2.4 It was noted that in the calendar year reviewed 2018, spend on maintenance just on the Churchyard and Burial ground accounted for 50% of the maintenance spend across the whole parish.
- 12.2.5 Councillors raised serious concerns about the generous level of maintenance in relation to the Church yard/Burial Ground that has taken place historically and the need to redress the situation. Councillors were mindful of their responsibility to ensure good value for the entire Parish.

12.3 Tree works as recommended by the Arboriculture Report

- iii. The appointed contractor has been asked to quote for the additional work in relation to the utility area that needs to be dug.
- iv. It was noted and agreed that it seemed sensible to future proof the project with including a point (via the UKPN works) that would mean electric charging may be possible in the future.

- Clerk asked if councillors were aware that the parking advice had disappeared as reported by a parishioner. It was noted that this occurred when the new posts were installed and that they were in a bad state of repair. - i. There are no high-risk areas reported and nothing that needs immediate/urgent attention;
- ii. The issue of accessibility for the majority of people with disabilities and it was noted that the Council has a path to the playground on its wish list which would help improve the access for those with disabilities;

- v. Chain wear and wood rot and splits – Noted *the matter of Chain wear, wood rot and splits in the timber are regularly stated and monitored on both the annual and monthly reports. ii. Wayleave Agreement

- a. Councillors noted that the land ownership has changed to a limited company, but that there was no request at the time to assign the lease. The request has been made whilst the new arrangements are being confirmed that the lease be assigned to a Limited Company.
- b. Councillors considered if the Parish council agrees of objects to the transfer of the existing agreement to a Limited company and the new agreement being granted to the limited company.

RESOLVED – Councillors unanimously agreed that the lease agreement(s) should not be transferred or granted to a Limited company as the Parish councils concerns is that any grant of a wayleave to a Limited company creates a transferable asset which can be traded with the company and the Parish Council as the freeholder could lose control. Wayleaves are assets of the Parish and the councillors want to be extremely careful that permissions are not granted lightly and want to ensure that the Parish future income from the Wayleave is protected.
