Pay Multiple FY2023-2024

The Local Government Transparency Code requires local authorities to publish the pay multiple on their website. The pay multiple, defined as the ratio between the highest paid taxable earnings for the given year (including base salary, variable pay, bonuses, allowances and the cash value of any benefits-in-kind) and the median earnings figure of the whole of the authority's workforce. The measure must:

- Cover all the elements of remuneration that can be valued
- Use the median earnings figure as the denominator, which should be that of all employees of the local authority on a fixed date each year, coinciding with reporting at the end of the financial year
- Exclude changes in pension benefits, which due to their variety and complexity cannot be accurately included in a pay multiple disclosure

Godstone Parish Council's pay multiple as at 31 March 2024 is 1.68

These calculations include part-time employees' total salaries as full-time equivalents, not pro rata.
